...we sow our actions and reap our habits,
...we sow our habits and reap our missions,
...we sow our missions, to reap our visions..."*

A Member of Universal Group of Companies

| Introduction |

Universal Group, one of the most diversified and fast growing business enterprises in the UAE, was founded in 1973 by an exceptional visionary , Mr. Shabeeb Al Dhaheri.

The group further made phenomenal progress after the entry of Mr. Hilal Al Dhaheri in 1977, who is presently the vice chairman of the group. Today, the Universal group of companies is a well reputed entity, which has carved a niche for itself by bringing a number of world leading products into the UAE market to meet its volatile demands. Apart from the trading and agency activities, the group has established a name in various other activities like project contracting, engineering and sponsorship.

Universal Group, with its commitment to quality in its quest for constant excellence In all its ventures, has earned a remarkable position in the market. Universal Group With almost two and half decades of strategic planning, inherent ability to identify opportunities added with its adaptability to changing market environment, has entrenched itself as a leader in the region's progressive market.

Group Companies:

- Universal Electrical Equipment Est.
- Universal Est. For Trading Agencies
- Universal General Transport Est.
- Universal Real Estate
- Universal Rent A Car (EUROPCAR)
- Universal Service Centre
- Universal Technical L.L.C.
- Universal Trading Company
- Universal Voltas L.L.C.
- Universal Weathermaker Factory L.L.C.

Universal Technical LLC

A member of Universal Group established in 1980 to serve major Oil Gas, Petrochemical, Utility General Industry & Construction Sectors in the UAE, We are one of the leading companies transferring cutting-edge technologies and value-added services to our diverse Clients with unparalleled performance that gives growth and success to our business partner

Universal Technical LLC functions as a partner to a wide range of well know overseas (international) manufacturers.

Our vast experience and enthusiastic team of experts have made us most chosen by our clients. We are an approved supplier to all major UAE companies. Our Product and Services cater sectors as diverse as:

- Valve Automation
- Electrical & Instrumentation
- System Integration & Communication
- Environment & Process Equipment
- Recruitment & Training
- Information Technology

Our Mission

To understand and fulfill our clients unique needs by providing unsurpassed service and Support to their organization and ensuring the solution provided are cost effective and meets customer satisfaction.

Our Vision

To remain as, the favoured supply and solution provider by enabling new applications. Professional service and streamline workflows that propel growth and add extra value to, both our clients and principals.

Armed with unrequited technical staff and reputed principals we are an energetic and goal-oriented company dedicated to making our vision a reality.

| Valve Automation |

Being the sole agent of Rotork products in the UAE, gives strength to our Valve Automation Division (VAD) for serving Oil & Gas, Petrochemical and Utility Sectors. Our value added services in our workshop include retrofitting, refurbishment & maintain all type of Rotork equipment.

Our Engineers are factory trained and updated to the best product knowledge to meet the industry challenges for new products, retrofit jobs as well as preventive maintenance of existing equipments.

Our Strength

Rotork, the world leader in valve actuation technology is always one step ahead of others. Rotork covers a wide range of actuators such as electric, pneumatic, hydraulic, gas/oil, elctro hydraulic, etc. Rotork Packscan is the most successful redundant system for the remote control of valve actuators using a two wire bus network. This two – wire communication system which links to DCS or PLC can accommodate 240 actuators for 20 km loop length without any repeaters.

Darchem, is a world leader in the design, development, manufacturing and installation of a range of passive fire protection systems and radiation heat shields for the offshore and petrochemical industries. Darchem manufactures flexible and rigid type PFP material suitable for the protection of valves, actuators, junction boxes, Cable trays, Structures, Equipment, etc., against hydrocarbon and jet fires.

JC Fabrica de valvulas, s.a. is a leading valve manufacturer for ball, gate, globe, check and butterfly valves. JC has its biggest stock in the Middle East, based in the U.A.E

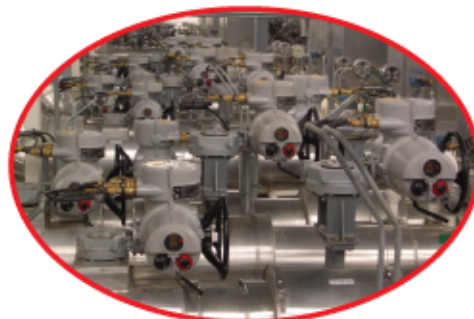

AB Valves manufactures all types of valves for Water and Power Industrial Sectors.

Universal Technical provides the best after sales service to our valued customers with the extensive support of our partner Rotork and we do sizing, assembling, testing, supplying and commissioning complete package of ESD Valves, MOVs, SDVs, CVAs with Fire Proof and Pneumatic Control Panel, where applicable.

rotork- JC

AB VALVES

Electrical & Instrumentation

Our E&I Division serves in different sectors Oil & Gas, Petrochemical, Water / Waste-water and General Industry.

Our principals / partners are leaders and / or have special patent in their know-how with ISO Quality Standard and certified by different approving authorities, UL, BASEEFA, ATEX, TUV, CSA International and other well known organization, where applicable.

JUMO GmbH Co.

Humidity, Pressure, Temperature & Pressure Transmitters; Analytical Measurement; Digital Indicator; Wireless Temperature Measurement; Temperature Sensors; Pen & Paperless Recorders.

CONTROLAIR INC.

Precision Pneumatic and Electro pneumatic Controls; I/P, E/P, P/I Transducers, Filter Regulators and Volume Boosters.

CASHCO INC (API Member)

Pressure Regulators, Vapor Control Systems and Control Valves.

AMETEK Calibration Instruments (JOFRA)

Temperature, Pressure & Signal Calibrators, Deadweight Testers, Temperature Sensors

AMETEK DREXELBROOK

Level Measurement (Point Level & Continuous Level)

CCS DUAL-SNAP:

Pressure & Temperature Switches

CAMILLE BAUER:

Current, Voltage, Power & Frequency Transducers; Energy meters; Angular Positioner Transmitters; Signal Converters.

ELIS PLZEN:

Electro Magnetic & Ultrasonic Flow meters

HALMA WATER MANAGEMENT

Water Leak detection and Data Logging Equipment; Pressure Control Equipment; Insertion and clamp on transit time flow meters.

MARLEW CONDUCTORES ELECTRICOS

Instrumentation, Communication, Power, Control cables; Pyrometry and special cables

DELGA S.A.

Lighting fixtures; Controls Stations; Junction boxes, Fittings, Receptacles

Our Value :

Sizing, Configuring control valves, pressure regulators and data logging, assisting clients for technical support in product selection, where applicable.

Electrical & Instrumentation

| System Integration & Communication |

PVSS II

GEBHARDT Automation GmbH

TBOX

IRBICOON

Our System Integration Base is active in two way for small & medium application completely done in house with panel assembling in our workshop . On the other hand, our System Integration base back-up the Rotork Pakscan in the region. And we developed our own Irrigation Controlller with decoding applications for landscaping irrigation. For sizeable projects & safety system, we use to work with international partner as main contractor and we cover after sales services.

All our value engineering and solutions based on following products / partners:-

"T-BOX" RTU

Semaphore that offers the RTU called TBOX with an advanced technology that integrates the power of PLC with the flexibility of Telemetry, in combination with Internet Technology.

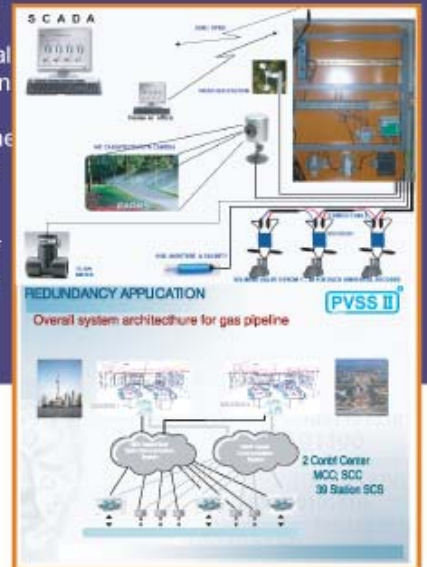

"PVSSII" SCADA

ETM Professional Control develops the process control software PVSSII an industry-independent, Universal process control system for visualization, monitoring and control of technical process. It communicates with a wide range of PLCs, DCSs and Tele control Systems.

"GEBHARDT" SAFETY SYSTEM

GEBHARDT Automation GmbH offers high available automation - and safety systems with scalable redundancy up to SIL3 (safety integrity level) for industrial using. They have proven by more than 700 installations worldwide, primarily in the sector of compressors, expanders and steam turbines. The certified TMR- (Triple Modular Redundancy) and DUPLEX -systems indicate problems but the machine is running. All relevant components for the safety systems are changing in " hot swap".

UTL is also backed by different International System Integrators in their field of expertise and act as partners subject to size & Known-How for projects like pipeline SCADA, Tunnels, Fire & Gas ESD System.

Protects from external and internal computer security threats. Using a combination of preemptive ThreatSeeker™ malicious content identification and categorization technology and information leak prevention technology.

يونيفرسال تكنولوجيز ل.ل.ع
UNIVERSAL TECHNICAL L.L.C.

We have established our training services department to deliver high quality services by finding solutions tailored to the clients need and by following international best practice at the best effective cost using only the highest caliber trainers available

Universal Technical offers the following comprehensive training services :
Safety related training

- Fire Fighting
- Onshore and offshore survival
- Risk Management
- Emergency Management
- Planning Environmental Management
- Occupational Health and Hygiene
- Oil spill prevention and response
- General Safety awareness

Technical Related Training

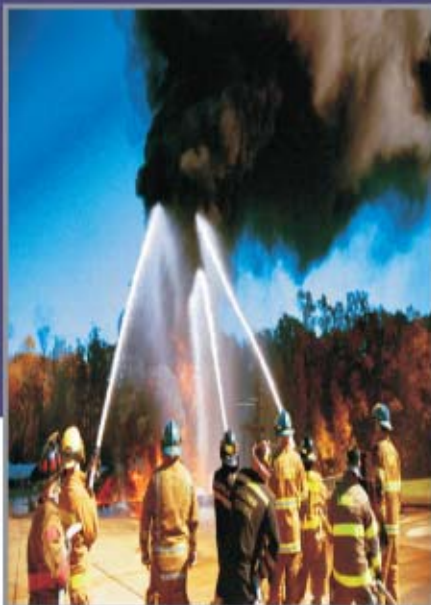

- Field Development
- Reservoir Engineering
- Reservoir Simulation
- Drilling and well completion

Management and financial topics

- Procurement, Contract admin strategic planning
- Developing Management Skills
- Organizational Management and financial analysis

We, Universal Technical, also provide professional services in the recruitment of professional personnel for the oil and gas industry. Our services cover the various disciplines of personnel (Engineering, IT production, Operations, Drilling, Skilled technicians etc..) from different regions such as Europe, Middle East, South and North Africa, the Far East in addition to GCC countries to fit our client's requirements.

Our objectives is to provide our clients with the right people, at the right cost by keeping an updated database of highly qualified engineers and technicians.

| Our Quality Policy |

It is the policy of Universal Group to always supply quality products and services that continuously meet customers' needs and expectations.

- Offering quality products / Services that meet customer requirements.
- On time delivery of products and services at optimum costs.
- Consistently monitoring, measuring and improving the level of customer satisfaction.
- Continuously upgrading the processes and systems to be at par with international quality standards.

Providing appropriate / adequate training to all employees enhancing their skills and contributions to meet the growing needs of the market.

In order to consistently achieve these, Universal Group is wholly committed to the implementation and maintenance of a quality management system with the full cooperation and teamwork of all its employees.

To strive for continual improvement, the quality management system and quality objectives are periodically reviewed by the management to ensure their effectiveness and compliance with the requirements of international quality standards.
